Advisory Fee	0.25% p.a.	USD 1,250/year
Custody Fee	0.10% p.a.	USD 500/year
Transaction Charges	0.05% per trade	Variable
Early Redemption	2.0% exit load	USD 10,000 at Y2

Fee Descriptions

Placement Fee

- A one-time placement fee of 0.50% of invested capital is applicable.
- Example: For an investment of USD 500,000, placement fee = USD 2,500.

Advisory Fee

- For investors availing financial advisory services, an annual advisory fee of 0.25% of invested capital applies.
- Example: $\text{USD } 500,000 \times 0.25\% = \text{USD } 1,250$ per annum.

Custody Fee

- A custody fee of 0.10% per annum is charged for safekeeping of bonds.
- Example: $\text{USD } 500,000 \times 0.10\% = \text{USD } 500$ per annum.

Transaction Charges

- Secondary market buy/sell trades are subject to transaction costs as per prevailing market norms.
- Approximate brokerage = 0.05% per transaction.

Redemption/Exit Charges

- Early redemption (prior to maturity) may be subject to a 2.0% exit load.
- Example: Selling USD 500,000 bond at year 2 = USD 10,000 exit charge.

Taxation & Withholding

Withholding Tax

Interest (coupon) payments are subject to withholding tax of 10% under applicable jurisdictions (varies by investor residency).

Capital Gains Tax

Gains on bond sale prior to maturity may attract capital gains tax depending on local regulations.

Tax Reporting Obligations

- Investors are responsible for declaring income in their tax jurisdiction.
- The bank will issue annual statements reflecting all coupons and charges.

Illustrative Cost Scenarios

Scenario A - Hold to Maturity (USD 500,000 investment)

Scenario A (Hold to Maturity)	Amount	Period
Placement Fee	USD 2,500	One-time
Advisory Fee	USD 3,750	3 years
Custody Fee	USD 1,500	3 years
Exit Charges	None	-
TOTAL FEES	USD 7,750	1.55%

Scenario B - Early Redemption at Year 2 (USD 500,000 investment)

- Placement Fee: USD 2,500
- Advisory Fee: USD 1,250/year = USD 2,500 (2 years)
- Custody Fee: USD 500/year = USD 1,000 (2 years)
- Exit Charge: USD 10,000
- TOTAL FEES: USD 16,000 (approx. 3.20% of investment)

Risk of Fee Impact

While fees may appear modest, they reduce net effective yield. For example, a 5.0% coupon bond with USD 500,000 investment generates USD 25,000 annually. If annual advisory + custody fees = USD 1,750, net effective yield reduces to 4.65%.

Disclaimer

This Fees and Charges document is provided for informational purposes. Investors should consult with their Relationship Manager at Maybank Wealth Banking to understand how these fees apply to their specific situation. All fees are subject to change at the discretion of the bank and regulatory requirements.
